

GUN AND FOAM CLEANER

Revision: 1/05/2024

Page 1 of 1

Technical Data

Basis	Acetone
Consistency	Aerosol

Description:

Gun and Foam Cleaner is a ready to use cleaning aerosol can to clean the Soudafoam Gun and remove uncured Soudal foams. Gun and Foam Cleaner is filled with HCFC and CFC-free propellants which are not harmful for the ozonlayer.

Properties:

- Removes not cured foam. Cleans tools such as gun
- Good degreasing and cleaning properties

Packaging:

Colour: colourless
Packaging: 500 ml aerosol

Shelf life and storage:

24 months unopened and stored in dry and cool conditions (Between 5 and 25°C)

Health- and Safety Recommendation:

In case of contact with skin, wash with water and soap.
In case of contact with eyes, wash immediately with plenty of water. Use only in well ventilated areas.

Application method:

Clean the gun internally by screwing the can onto the gun and pulling the trigger several times, keep an interval period of 10 - 15 seconds after each time. Clean the gun externally by using the red adapter. Immediately remove spilled foam with a foam cleaner, cured foam must be removed mechanically. Prior to using the cleaner, test whether surfaces are affected or not. Especially plastics and lacquer or paint layers can be sensitive to this.

Can temperature: +5 °C - 30 °C

Remark: The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. In every case it is recommended to carry out preliminary experiments.
