

PVCu Cream Cleaner

Product description

PVCu Cream Cleaner is a high quality, non-settling, liquid cream that has mild abrasive perfumed cleaning and rejuvenating properties for a glossy result on white PVCu frames and other plastics.

Properties

- Solvent free
- Fast acting
- Ready to use
- Mild abrasive
- Restores to a clear and shiny finish
- Non-smearing
- Multi-purpose use
- Not flammable
- VOC free

Applications

- Where the use of a non-hazardous, solvent free cleaner is required.
- Cleaning of most types of PVCu frames, sills, cladding, panels and trims.
- For removing most ingrained dirt, grease, uncured sealant, pencil and pen mark.
- For rejuvenating PVCu frames gone dull.
- Cleaning of plastic garden furniture.

Technical data

Base	Solvent free mixture with limestone
Consistency	High viscous fluid
Density	ca. 1.50 g/ml
Application temperature	+5°C → +25°C

Footnote: Skinning time and curing speed may vary depending on environmental factors such as temperature, moisture, and type of substrates.

Substrates

- Substrate condition
Dirty
- Substrate preparation
No pretreatment required.
- Suitable substrates
white PVCu window frames hard PVC

Application method

- Application method
Shake well before use. Soak a clean absorbent cloth with PVCu Cream Cleaner, then simply wipe the surface clean of contaminants. For stubborn stains, apply more cleaner to the cloth, press firmly and rub in a circular motion. This process can be repeated where necessary. Polish up the cleaned surface using a second dry cloth for a bright finish. Always work with a clean cloth to avoid contamination of the surface.

PVCu Cream Cleaner

Health- and Safety Recommendations

Take the usual labour hygiene into account. Consult the packaging label and safety data sheet for more information.

Always wear gloves and goggles.

The user has to check if the product is suitable for the specific application.

Packaging/Logistics

Colour: white-beige

Packaging: 1 L bottle

Shelf life: 12 months in unopened packaging in a cool and dry storage place at temperatures between +5°C and +25°C

Remarks

- It is recommended to do a compatibility test prior to application.
- PVCu Cream Cleaner should not be diluted.

This technical data sheet replaces all previous versions. The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. It is general in nature and does not constitute any liability. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. Since the design, the quality of the substrate and processing conditions are beyond our control, no liability under this publication is accepted. It is the responsibility of the user to determine by his own tests whether the product is suitable for the application. In every case it is recommended to carry out preliminary experiments. The manufacturer reserves the right to modify products without prior notice.
